

Presented by:

HEALING CONNECTIONS

Healing Connections is a four-day immersive program designed to address the lasting impact of trauma.

Experiencing trauma can have significant effects on mental health including PTSD, Depression and Anxiety that impact daily life. Healing Connections is centered around the power of healthy relationships with ourselves and others to generate healing.

Who is this program for? This program is open to women and non-binary adults over the age of 23 interested in addressing their trauma.

Who is PBJ Connections? We are a team of Mental Health and Equine (horse) professionals that have been providing mental health treatment to Central Ohioans since 2006. We recognize that some people need more than weekly, hour long, talk therapy sessions to heal from chronic traumatic experiences and complex PTSD.

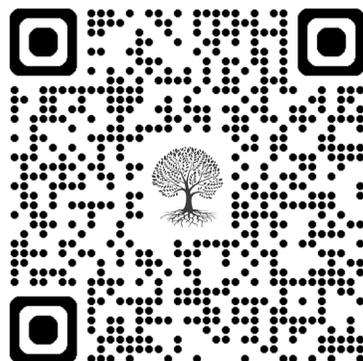

Apply and learn more about the facilitators at:
